## GUIDELINES ON THE USE OF THE MOST ESSENTIAL LEARNING COMPETENCIES (MELCs)

### I. Rationale

As the COVID19 pandemic continues to impact various governments and economies around the world, even schools are not spared from its crippling effects. The current global health crisis poses a profound impact on the basic education system as approximately 87% of the world's student population, that is 1.5 billion learners, have been affected by school closures (UNESCO, 2020). While interim distance and remote learning programs are being put in place in many locations, the most marginalized, poverty-stricken, and vulnerable children are also the most disadvantaged.

As for the Philippines, ensuring the welfare of more than 27 million learners in the basic education alone requires indomitable commitment especially amidst this crisis. However, as UNESCO reiterates its stand in spite of the circumstances, *'Education cannot wait. If learning stops, we will lose human capital.'* Thus, meeting the needs of the most vulnerable populations in these times is essential in achieving SDG4 (UNESCO, 2017).

The Department echoes UNESCO's belief that educational quality, access, and system strengthening cannot be compromised in times of crisis (UNESCO, 2017) and doing the opposite will negatively affect human capital. Thus, the Department of Education affirms its commitment in sustaining the delivery of quality, accessible, relevant and liberating Philippine basic education services anchored on the Sulong Edukalidad framework. It will continue to strive to produce holistic Filipino learners with 21<sup>st</sup> century skills. Consequently, the Bureau of Curriculum Development ensures that learning standards are relevant and flexible to address the complex, disruptive, volatile, and ambiguous impact of COVID-19 in the Philippines particularly in the basic education sector.

Working on the said premise, the Department hereby releases the Most Essential Learning Competencies (MELCs) to be used nationwide by field implementers and private schools for SY 2020-2021 only. The release of the MELCs is not just a response to addressing the challenges of the current pandemic but is also part of the Department's long-term response to the call of SDG 4 to develop resilient education systems, most especially during emergencies. Thus, it can be used under certain circumstances as a mechanism to ensure education continuity (curriculum dimension). However, releasing the MELCs does not downplay the standards set by the K to 12 curriculum guides. Rather, these serve as guide to teachers as they address the instructional needs of learners while ensuring that curriculum standards are maintained and achieved. The content and performance standards are indicated in the attached documents for field implementers to recognize that the MELCs are anchored on the prescribed standards.

Furthermore, the MELCS intend to assist the schools in navigating the limited number of school days as they employ multiple delivery schemes by providing them ample instructional space.

### II. Background on the Identification of the Most Essential Learning Competencies

The Department, through the Bureau of Curriculum Development – Curriculum Standards Development Division in collaboration with the Assessment Curriculum and Technology Research Centre (ACTRC), started working on the identification of essential learning competencies in the middle of 2019 as part of its initiative in reviewing the intended curriculum. Bureau specialists, academic experts and field implementers worked to reach a consensus regarding the criteria to be used and mechanism to adopt in determining these competencies. Initiated by Secretary Leonor Magtolis-Briones, the K to 12 curriculum review is not just meant to fulfill one of the provisions of Republic Act (RA) 105333 to review the curriculum but is her continuing commitment to ensure quality, relevant and liberating education. After the four phases of curriculum review are completed, the Secretary will convene the Curriculum Consultative Committee to present the findings as provided for in Section 6 of the same Republic Act.

The review focused on articulation within and across learning areas which led to the identification of gaps, issues, and concerns across learning areas and grade levels. Moreover, areas for improvement that would enhance the learning engagement, experience and outcomes were recommended.

Results of the review from the workshop series provided an overview of the articulation of learning competencies in each learning area. Specifically, the review covered the following:

- mapping of the *essential* and *desirable* learning competencies within the curriculum;
- identification of prerequisite knowledge and skills needed to prepare students for essential learning competencies; and
- analysis of the interconnectedness of prerequisite knowledge and skills among the learning competencies for each subject area.

Essential learning competencies *were defined as what the students need*, considered indispensable, in the teaching-learning process to building skills to equip learners for subsequent grade levels and consequently, for lifelong learning. On the other hand, desirable learning competencies were defined as what may enhance education but may not be necessary in building foundational skills.

A list of characteristics of essential learning competencies was provided to help participants decide which among the learning competencies are deemed most important.

#### *Characteristics of an Essential Learning Competency*

Learning competency is <i>ESSENTIAL</i> if ...	is	<ol style="list-style-type: none"> <li>1. it is aligned with national, state, and/or local standards/ frameworks (eg: 'scientifically literate Filipinos').</li> <li>2. it connects the content to higher concepts across content areas.</li> <li>3. it is applicable to real-life situations.</li> <li>4. If students left school after this grade, it would be important for them to have this competence above many others.</li> </ol>
--	----	---

- 
5. it wouldn't be expected that most students would learn this through their parents/communities if not taught at school.
- 

These characteristics are based on a US-developed competency validation rubric, which is intended to assure that learning competencies can reach the highest level of quality and comparability across schools (New Hampshire Department of Education, 2012); adaptations were made for relevance in the Philippine context.

As the Department anticipates the challenges in employing various schemes in the delivery of the learning standards due to COVID19, the number of the identified essential learning competencies per quarter were further reduced, thus, the term **most essential learning competencies (MELCs)**.

In determining the criteria for the selection of the most essential learning competencies, the Department in consultation with stakeholders, during which the descriptor – ENDURANCE – was considered the primary determining factor. A learning competency is considered enduring if it remains with learners long after a test or unit of study is completed or if it is useful beyond a single test or unit of study. Examples of such learning competencies include research skills, reading comprehension, writing, map reading, and hypothesis testing, which are essential in many professions and in everyday life (Reeves, 2002; Many & Horrell, 2014). The Department then identified the MELCs through the application of these understandings.

Necessary in the above process is the decision whether a learning competency is to be retained, merged, dropped, or rephrased. As a general rule, a learning competency is *retained* if it satisfies the endurance criterion which greatly contributes to life-long learning and is a pre-requisite skill to the next grade level. On the other hand, two or more learning competencies are *merged or clustered* if they have the same objective or learning intention; and thus, can be combined into one comprehensive learning competency. In addition, a significant number of learning competencies is *removed/dropped* due to the following reasons:

- they are too specific (and the articulation is similar to that of a learning objective)
- they are deemed appropriate to be introduced in an earlier quarter or grade level or moved to a later quarter or grade level
- they are recurring
- they are subsumed in another learning competency.

Finally, a learning competency is rephrased to be more concise.

The content and performance standards are directly lifted from the curriculum guides. Its inclusion is to emphasize that the identification of MELCs is anchored on the prescribed standards and not a departure from the standards-based basic education curriculum. Thus, teachers are encouraged to refer to the 2016 Curriculum Guides in unpacking the MELCs.

All learning areas will still be taken up by the learners in all grade levels, albeit with streamlined competencies. This is to ensure that the learning outcomes are still achieved even in this pandemic. It is noted that, by principle, the time allocated per subject on a daily basis did not change. This means that schools need to consider this aspect in employing various delivery schemes.

Field implementers and private schools are encouraged to contextualize the most essential learning competencies in order to accommodate the varying contexts of learners, teachers, learning environment and support structures considering both the content and performance standards. It is advantageous for students to learn the concepts and skills in the MELCs through meaningful activities and scenarios relatable to them and within the context of the students' own environment. The MELCs are implementable as long as the designed activities also teach the procedures and processes on how and when to apply those knowledge and skills in a given context. With these, Filipino learners are guaranteed relevant and quality basic education despite the current health crisis.

The Department of Education, through the Office of the Undersecretary for Curriculum and Instruction, shall gather relevant feedback on a regular basis from all concerned internal and external partners and stakeholders in the implementation of these guidelines in order to further enhance its provisions and findings which will serve as inputs to the ongoing review of the K to 12 curriculum.

### Guide for Teachers in using the Kindergarten Most Essential Learning Competencies (MELCs)

The Department of Education, through the Bureau of Curriculum Development-Curriculum Standards Development Division, has developed the most essential learning competencies (MELCs) to address the challenges brought about by the global pandemic. Its negative impacts in the educational system which include but not limited to the shortened school year, limited face to face interaction of teachers and learners, and other instructional delivery-related concerns pose serious problem most specifically to early childhood learners.

Thus, the MELCs ensure that that all five-year-old Filipino learners achieve the content and performance standards expected of them in various learning domains. In the process of identifying the MELCs, the ENDURANCE criterion was used as the sole determiner. Endurance is defined as the learning competency that remains with learners long after a test is completed (Reeves, 2002) or is useful beyond a single test or unit of study (Many and Horrell, 2014) which is applicable to real-life situations e.g. social participation and integration. Finally, the MELCs identified under the seven (7) developmental domains are those that work in close association with the circular themes from the Kindergarten Curriculum Guide which will be used for each lesson and activity for the week.

#### How to Use the MELCs

The MELCs identified in Kindergarten may be taught repeatedly to help the learner acquire the necessary knowledge, skills and values. It is also recommended that the teacher unpack the MELCs into more specific learning competencies or objectives using the Kindergarten Curriculum Guide. The teacher may add more sub-competencies depending on the need of the learners.

## Gabay sa mga Guro sa Paggamit ng Most Essential Learning Competencies (MELCs) sa Araling Panlipunan

Minarapat ng Kagawaran ng Edukasyon sa pangunguna ng Bureau of Curriculum Development ang pagbuo ng pinakamahahalagang kasanayang pampagkatuto (most essential learning competencies) upang tugunan ang mga hamong kaakibat ng COVID19 tulad ng mas maikling panahong pagpasok sa paaralan, limitadong interaksyon sa pagitan ng mag-aaral at guro, at mga kaugnay na hamon na may kinalaman sa *instructional delivery*.

Pinapanatili ng MELCs ang mga pangunahing layunin sa pag-aaral ng Araling Panlipunan tulad ng pagpapaunlad ng pansibikong kaalaman at kagalingan, mapanagutang mamamayan, at iba pa.

Sa pagtukoy ng MELCs, ginamit ang pamantayang enduring (life-long learning) - mga kaalamang nananatili sa mahabang panahon na magagamit ng mga mag-aaral sa kanilang pamumuhay

Kalakip ng pamantayang nabanggit ang pagsasaalang-alang ng pagsasakatuparan ng pamantayang pangnilalaman at pagganap na makikita sa bawat kwarter o markahan.

### Paano gagamitin ang MELCs sa pagtuturo?

Layunin ng pagbuo ng MELCs ay matulungan ang mga guro na matukoy ang mahahalagang kasanayang pampagkatuto upang sa gayon ay mabigyan ito ng prayoridad at maging batayan sa kanilang mga desisyong instruksiyonal at hindi upang palitan ang kasalukuyang curriculum guide.

Ang mga MELC ay hinango mula sa mga *learning competencies* ng K to 12 Araling Panlipunan Curriculum Guide kung saan, ito ay pinag-aralan kung *retained*, *merged*, *rephrased*, *subsumed* o *deleted* katulad ng nasa talahanayan sa ibaba:

MELCs	Uri ng Batayan / Paliwanag	Halimbawa (Learning Competency/-ies mula sa K to 12 Curriculum Guide)
<i>'Nasasabi ang batayang impormasyon tungkol sa sarili: pangalan, magulang, kaarawan, edad, tirahan, paaralan, iba pang pagkakakilanlan at mga katangian bilang Pilipino'</i> (AP1, Quarter 1).	Retained <input type="checkbox"/> <i>itinuturing na esensyal kaya hindi nirebisa o nanatili sa dati nitong anyo o artikulasyon tulad ng makikita sa K to 12 Curriculum Guide</i>	<i>'Nasasabi ang batayang impormasyon tungkol sa sarili: pangalan, magulang, kaarawan, edad, tirahan, paaralan, iba pang pagkakakilanlan at mga katangian bilang Pilipino'</i> (AP1, Quarter 1).
<i>*Naipaliliwanag ang konsepto ng komunidad'</i> (AP2, Quarter 1)	Merged <input type="checkbox"/> <i>magkakaugnay, magkakahalintulad, o bahagi ng isang paksa na pinag-isa na lamang sa pamamagitan ng pagbuo ng bagong PP</i>	a. <i>Nauunawaan ang konsepto ng 'komunidad'</i> , b. <i>'Nasasabi ang payak na kahulugan ng 'komunidad' at</i> c. <i>Nasasabi ang mga halimbawa ng 'komunidad'</i>

	<input type="checkbox"/> <i>pagsasama-sama ng ilang learning competencies upang mapaikli ang panahon ng pagtuturo nang hindi isinasantabi ang pagbibigay tuon sa paglinang ng pagpapahalaga (valuing) at pagsasabuhay nito</i>	
<i>*Naipamamalas ang pagpapahalaga sa pagkakatulad at pagkakaiba-iba ng mga kultura gamit ang sining na nagpapakilala sa lalawigan at rehiyon (e.g. tula, awit, sayaw, pinta, atbp.) (AP 3, Quarter 3)</i>	Rephrased <input type="checkbox"/> <i>sumailalim sa pagpapalit ng learning verb, salita, o grupo ng mga salita upang gawin itong mas tiyak, malinaw, o komprehensibo</i> <input type="checkbox"/> <i>pagsasaayos ng learning competency/-ies upang higit itong maging malinaw sa guro</i>	<i>'Naipapakita sa iba't-ibang sining ang pagmamalaki sa mga natatanging kaugalian, paniniwala at tradisyon ng iba't ibang lalawigan sa kinabibilangang rehiyon' (AP3PKR- IIIh-9).</i>
Nailalapat ang kahulugan ng ekonomiks sa pang-araw-araw na pamumuhay bilang isang mag-aaral, at kasapi ng pamilya at lipunan (AP 9, Quarter 1)	Subsumed <input type="checkbox"/> <i>magkakaugnay, magkakahalintulad, o bahagi ng isang paksa na ipinagpapalagay na nakapaloob na sa nakapag-iisang (independent) MELC</i>	a. Naipakikita ang ugnayan ng kakapusan sa pang-araw-araw na pamumuhay b. Natutukoy ang mga palatandaan ng kakapusan sa pang-araw-araw na buhay. c. Nakakabuo ang konklusyon na ang kakapusan ay isang pangunahing suliraning panlipunan d. Nakapagmumungkahi ng mga paraan upang malabanan ang kakapusan
	Deleted <input type="checkbox"/> <i>hindi isinama sa ibang uri ng PPs dahil ito ay hindi esensyal, at ang pagtatanggal dito ay halos walang epekto sa pagkakamit ng pamantayang pangnilalaman/pagganap</i>	Nasusuri ang mga tungkulin ng iba't-ibang organisasyon ng negosyo (LC 22, AP 9, Quarter 1)

Tulad ng *curriculum guide*, ang MELCs ay batayan ng guro sa lalamanin ng kanilang pagtuturo sa *Taong Pampaaralang 2020-2021*. Bawat kasanayang pampagkatuto ay may malawak na paksa at kasanayan. Ito ay inaasahang ia-unpack ng guro sa kanyang DLP o DLL upang mabigyang pansin ang mga batayang konsepto at kaalaman na siyang kakailanganin sa pagsasakatuparan nito. Lahat ng MELCs ay inaasahang tutugon sa pamantayang pangnilalaman at pamantayan sa pagganap.

## GUIDING OUR TEACHERS: A Briefer on Using the English MELCs

### About the Process

In light of the COVID-19 pandemic and the consequent shortened academic year, the Department of Education, through the Bureau of Curriculum Development-Curriculum Standards Development Division, has produced a list of the most essential learning competencies (MELCs). This was done in order to ensure that the Grade Level Standards set for each learning area are still attained. In the process of identifying the MELCs, the ENDURANCE criterion was used as the sole determiner. Guided by the requirement that a learning competency (LC) be useful in lifelong learning, the group of specialists in-charge of the English curricula recognizes the role of the subject in providing the literacy and oracy skills necessary in acquiring the content knowledge in other learning areas. Therefore, the MELCs identified are those that work in close association with other competencies in other subjects, thus maintaining the curricular quality of integration.

#### *Example:*

G4 Q1: Identify different meanings of content specific words (denotation and connotation)

The example above provides students with knowledge of content specific words learned from subjects delivered using English such as Math and Science.

MELCs are also significantly less than the original number of LCs in the curriculum because of two factors. First, recurrence is avoided especially in a key stage. Although any language curricula would require recurrence as this is the nature of language learning, this is limited per key stage. In other words, an LC deemed significant enough to repeat shall only recur in the next key stage while observing spiral progression.

#### *Example:*

Key Stage 2 (G6 Q2): Detect biases and propaganda devices used by speakers

Key Stage 3 (G8 Q3): Examine biases (for or against) made by the author

However, this does not mean that the teacher is prohibited from teaching an LC more than once. Following the principle of curriculum flexibility and differentiated instruction, he/she is strongly advised to put focus, and therefore repeat an LC should circumstances require.

The second factor considered in determining the MELCs is the LCs' ability to be clustered together. Consider the example below:

#### *Example:*

Use a variety of informative, persuasive, and argumentative writing techniques

As can be seen, this LC would entail a number of other competencies in order for it to be achieved. Among the competencies needed are: (1) making a stand; (2) gathering information from various sources; (3) citing sources of information. This consequently calls for unpacking and sub-tasking on the part of the teacher, so that bigger or broader LCs may be broken down into manageable sub-competencies.

It should also be noted that domains were no longer retained as these may cause confusion among end users. The original English Curriculum Guide (CG) was designed in such a way that domains work together through horizontal alignment since one lesson does not tackle only one macro skill, but multiple skills. However, during the examination of LCs using the ENDURANCE criterion, some skills under a particular domain can no longer be retained. Organizing the MELCs by domain, through columns as in the original CG, would render the document seemingly incomplete and harder to follow due to the absence of horizontal alignment. See table below which shows Week 9 of the First Quarter of Grade 4; note that entries in red are not considered MELCs:

LC Listening Comprehension	OL Oral Language	V Vocabulary Development	RC Reading Comprehension	F Oral Reading Fluency	SS Study Strategy	G Grammar	WC Writing Composition
EN4LC-li- 2.8 Infer feelings and traits of character s based on the story heard	EN4OL-li- 10 Express one's ideas and feelings clearly	EN4V-li- 13.9 Use context clues (exemplif ication) to determin e the meaning of unfamilia r words	EN4RC-li- 2.8 Infer feelings and traits of character s based on the story read	EN4F-li- 14 Read with accuracy words, phrases, poems, and stories with silent letters	--	EN4G-li- 3.2.1.1 Use simple present tense of verbs in sentence s	EN4WC- li-6 Write a response to a story/po em read or listened to -letters

Accordingly, the MELCs were arranged in a list based on cognitive demand, which makes way for better curriculum flexibility as teachers are able to freely integrate LCs without the restrictions of horizontal alignment. Relative to this, the schedule and time allotment of LCs in quarters are suggestive in nature. As

discussed, the teacher is given the autonomy to unpack the MELC depending on the needs of the learners. Based on this premise, therefore, the duration of an LC is relative. What is required, however, is that the list of competencies be achieved in the specified grade level.

Lastly, because the content and performance standards in the English Curriculum are described in such detail, especially in Grades 1 to 4 where these are broken down into domains, the process of determining the MELCs required that some of these standards be forgone. See figure below showing some of the content and performance standards for Grade 2:

Domain	Content Standard	Performance Standard
	<i>The learner...</i>	<i>The learner...</i>
<b>Oral Language</b>	demonstrates understanding of grade level appropriate words used to communicate inter- and intrapersonal experiences, ideas, thoughts, actions and feelings	independently takes turn in sharing inter and intra personal experiences, ideas, thoughts, actions and feelings using appropriate words
	demonstrates understanding of familiar literary texts and common expressions for effective oral interpretation and communication	uses appropriate expressions in oral interpretation and familiar situations
<b>Fluency</b>	demonstrates understanding of punctuation marks, rhythm, pacing, intonation and vocal patterns as guide for fluent reading and speaking	fluently expresses ideas in various speaking tasks
		accurately and fluently reads aloud literary and informational texts appropriate to the grade level
<b>Listening Comprehension</b>	demonstrates understanding of text elements to see the relationship between known and new information to facilitate comprehension	correctly presents text elements through simple organizers to make inferences, predictions and conclusions
	demonstrates understanding of information heard to make meaningful decisions	uses information from theme-based activities as guide for decision making and following instructions
<b>Alphabet Knowledge</b>	demonstrates understanding of the alphabets in English in comparison to the alphabets of Filipino and Mother Tongue	distinguishes similarities and differences of the alphabets in English and Mother Tongue/Filipino
<b>Phonics and Word Recognition</b>	demonstrates understanding of the relationship of phonetic principles of Mother Tongue and English to decode unknown words in English	analyzes pattern of sounds in words for meaning and accuracy
		ably reads and spells out grade appropriate regular and irregular words in English
<b>Phonological Awareness</b>	demonstrates understanding of the letter-sound relationship between Mother Tongue and English for effective transfer of learning	effectively transfers the knowledge of letter-sound relationship from Mother Tongue to English
		correctly hears and records sounds in words
<b>Vocabulary</b>	demonstrates understanding of suitable vocabulary used in different languages for effective communication	uses familiar vocabulary to independently express ideas in speaking activities
<b>Book Knowledge</b>	demonstrates understanding about the concepts about print	correctly identifies book parts and follows reading conventions

Nevertheless, it is assured that all Grade Level Standards are maintained through the chosen MELCs.

### How to Use the MELCs

Given the nature of the MELCs, the teacher is advised to re-teach certain competencies needed for their achievement. It is also recommended that the teacher unpack the MELCs into more specific learning competencies as guided by the original 2016 English Curriculum Guide. Consider the following samples:

GRADE LEVEL/ QUARTER	MELC	SUB-COMPETENCIES
G3 Q2	Read phrases, sentences, and short stories consisting of words with initial and final consonant blends	Read words with initial consonant blends (l, r and s blends) followed by short vowel sounds (e.g. black, frog, step)
		Read phrases, sentences and short stories consisting of words with initial consonant blends
		Read words with final blends (-st, -lt, -nd, -nt, -ft) preceded by short e, a, i, o and u words (belt, sand, raft)
G5 Q3	Summarize various text types based on elements	Identify the elements of literary texts
		Identify informational text-types
		Summarize narrative texts based on elements: -Theme -Setting -Characters (heroes and villains) -Plot (beginning, middle and ending)
		Identify the main idea, key sentences and supporting details of a given paragraph
		Distinguish text-types according to purpose (classify or describe, recall series of events, explain, persuade)
		Distinguish text types according to features (structural and language): problem and solution, cause and effect, comparison and contrast, and time order (sequence, recounts, process)
		Make generalizations
		Respond appropriately to messages of different authentic texts
G6 Q2	Analyze the elements used in print, non-print, and digital materials	Identify the elements of a literary text listened to
		Identify the elements of informational text (editorial)
		Analyze sound devices (onomatopoeia, alliteration, assonance, personification, irony and hyperbole) in a text heard
		Analyze the characters used in print, non-print, and digital materials (age and gender, race and nationality, attitude and behavior)
		Analyze the setting used in print, non-print and digital materials (urban or rural; affluent or poor)

G7 Q4	Employ a variety of strategies for effective interpersonal communication (interview, dialog, conversation)	Determine the tone and mood of the speaker or characters in the narrative listened to
		Use different listening strategies based on purpose, topic and levels of difficulty of simple informative and short narrative texts
		Determine the intentions of speakers by focusing on their unique verbal and non-verbal cues
		Predict the outcomes of a verbal exchange listened to and their possible effects on the speakers
		Listen for important points signalled by volume, projection, pitch, stress, intonation, juncture, and rate of speech

The sub-competencies listed above are only some of the LCs subsumed by the MELCs. The teacher may include more or less than those identified depending on the needs of the learners. Teachers are given the leeway to formulate learning objectives deemed necessary for their students' cognitive development as long as they adhere to the existing curriculum standards prescribed by the Department of Education.

## Gabay ng Guro sa Paggamit ng Most Essential Learning Competencies (MELCs) sa Edukasyon sa Pagpapakatao (EsP)

Bilang paghahanda sa mga krisis o emergency dulot ng mga kalamidad o pandemya, naghanda ang Bureau of Curriculum Development, Kagawaran ng Edukasyon, ng Most Essential Learning Competencies (MELCs) na magsisilbing batayan ng Bureau of Learning Delivery, Bureau of Learning Resources, mga dibisyon, at mga paaralan sa pagtukoy at paghahanda ng mga kagamitan sa pagkatuto. Ang mga MELC ay ang mga *lubhang mahalagang* kaalaman, pag-unawa, kasanayan, at pagpapahalaga na dapat matutuhan ng mga mag-aaral *sa panahon ng krisis, kalamidad o pandemya*, upang maging produktibo at mapanagutang mamamayan (Republic Act 10533, Section 2, Declaration of Policy). Kinalap ang mga LC na ito mula sa mga LC ng Gabay Pangkurikulum na naka-upload sa DepEd website. Binawasan lamang ang bilang ng mga paksa sa Junior High School at bilang ng mga LC sa Baitang 1 hanggang 6, ngunit hindi ang mensahe o esensya ng mga paksa o LC. Ang mga MELC ay magsisilbing *minimum essentials*, ngunit hindi dapat isakripisyo ang kalidad, lawak (breadth) at lalim (depth) ng mga dapat matutuhan ng mga mag-aaral sa panahon ng krisis o pandemya, kaya inaasahan pa rin ang ang pagkukusa, dedikasyon, at komitment ng mga guro, gabay ng mga taga-masid, sa pagpapatupad ng mga MELC na ito. Mahalaga ang matalinong paghuhusga (prudence) ng mga guro sa pagpapaunlad ng mga MELC na ito (kung kinakailangan), ayon sa konteksto ng mga mag-aaral at itinakdang panahon sa pagtuturo.

### I. Mga Konsiderasyon at Paraan sa Pagpili ng mga MELC

A. *Mga Konsiderasyon sa Pagpili ng mga MELC.* Isinaalang-alang ang sumusunod sa pagpili ng mga MELC sa Edukasyon sa Pagpapakatao:

1. Mga Kraytirya sa Pagpili ng MELCs sa Batayang Edukasyon:

*b. Endurance.* Learning competency which is essential skill in many professions and in everyday life (Many and Horrell, 2014); applicable to real-life situations, e.g. social participation and integration; learning competency that goes beyond one course or grade level and is representative of a concept or skill that is important in life

2. Mga Pamantayan sa Pagkatuto (Learning Standards) sa bawat baitang:

a. Pangkalahatang Pamantayan

b. Pamantayang Pangnilalaman

c. Pamantayan sa Pagganap

3. Sa Baitang 1 hanggang 6: ang mga LC na may nakapaloob na Batayang Konsepto kahit hindi direktang binanggit ito. Halimbawa, LC sa sa Baitang 1, Unang Markahan: Nasasabi na nakatutulong sa paglinang ng sariling kakayahan ang wastong pangangalaga sa sarili. LC sa Baitang 3, Ikatlong Markahan: Nakapagpapahayag na isang tanda ng mabuting pag-uugali ng Pilipino ang pagsunod sa tuntunin ng pamayanan.

4. Sa Junior High School: ang **apat na uri ng mga Kasanayan sa Pampagkatuto o LCs** sa bawat paksa batay sa anim na kasanayan sa Cognitive Process Dimensions (DepEd Order 8, s. 2015, Policy Guidelines on Classroom Assessment for the K to 12 Basic Education Program). Hindi malilinang ang pag-unawa sa Batayang Konsepto (BK) na nakapaloob sa paksa at ang Performance task na ebidensya ng pag-unawa sa BK kung aalisin ang *kahit isa* sa apat na LC. Narito ang mga uri ng kasanayang nililina sa bawat isa sa apat na LC at ang mga tanong na sinasagot ng bawat LC:

- *Unang LC* – Knowledge. Sinasagot nito ang tanong na: *Anong kaalaman ang kailangan upang maipamalas ng mag-aaral ang pag-unawa?*
- *Ikalawang LC*- Comprehension, Analysis, Evaluation sa dating Blooms Taxonomy ng Cognitive Domain. Sinasagot nito ang tanong na: *Anong kasanayan ang dapat maipamalas tungo sa pag-unawa?*
- *Ikatlong LC* – Comprehension at Synthesis; taglay nito ang Batayang Konsepto o Essential Understanding (EU), ang batayan ng pagbubuo ng ika-apat, una, at ikalawang LC. Sinasagot nito ang tanong na: *Ano ang pinakamahalagang mensahe na dapat maunawaan ng mag-aaral?*
- *Ika-apat na LC*- Application, nakapaloob dito ang Performance Task, ang produkto o pagpapakita ng kasanayan (demonstration of a skill) na nagsisilbing ebidensya ng pag-unawa ng mag-aaral sa Batayang Konsepto. Sinasagot nito ang tanong na: *Ano ang dapat maipamalas ng mag-aaral bilang patunay ng pag-unawa?*

**Tandaan:** Ang **Batayang Konsepto** ang matibay na patunay ng dalawang katangian ng Most Essential Learning Competencies (MELCs) – ang Endurance at Leverage. Kung walang Batayang Konsepto, hindi maipahahayag nang malinaw ang expert system of knowledge (na nakaankla sa mga batayang disiplina ng EsP, Etika at Career Guidance) na dapat matutuhan ng mga mag-aaral. May apat na katangian ang Batayang Konsepto:

- Pangmatagalan o pang-habang buhay (Endurance).** Kailangan ng mag-aaral ang LC na ito kahit tapos na siya sa pag-aaral. Mailalapat niya ito sa mga konkretong sitwasyon ng buhay at sa anomang propesyon o curriculum exit na pipiliin niya. Hindi ito maaaring maaanod sa pagbabago ng panahon.
- Batay sa mga disiplina ng EsP (Discipline-based).** Nakaankla ang Batayang Konsepto sa dalawang disiplina ng EsP: Etika at Career Guidance. Ang expert system of knowledge na ipinahahayag nito ay nangangailangan ng matibay na batayan mula sa malalim na pag-aaral o pagsasaliksik.
- May nakapaloob na mga konsepto (Needs Uncoverage).** Ang malaking mensahe ng Batayang Konsepto ay maaari pang mahimay sa maliliit na konsepto.
- Mapupukaw nito ang interes, atensyon, at pakikilahok ng mag-aaral (Potentially Engaging).** Lubhang mahalaga ang mensahe ng Batayang Konsepto sa buhay ng mag-aaral, kaya napupukaw nito ang kanyang interes, atensyon, at pakikilahok.

#### B. Paraan sa Pagpili ng mga MELC.

1. Sa Junior High School, inilatag ang lahat ng paksa sa bawat baitang at sinuri kung alin sa mga ito ang maaaring i-cluster, gabay ang mga kraytirya sa pagpili ng MELCs sa batayang edukasyon (Readiness, Endurance at Leverage). Ibinatay sa mga kraytiryang ito ang pagbabawas sa *bilang* ng mga paksa. **Paunawa:** Binawasan lamang ang *bilang* ng mga paksa (at ng mga LC), ngunit hindi ang *nilalaman o esensya* ng mga paksa o LC.

Sa Baitang 1- 6 naman, tumutugon sa mga kraytirya ng *Endurance* at *Leverage* ang lahat ng mga LC. Dahil dito, hindi binawasan ang mga paksa, kundi sinuri ang bawat LC ayon sa kraytirya ng *Readiness* (kung ito ay pre-requisite na nilalaman o kasanayan sa susunod na paksa o markahan). Kung hindi tumutugon ang isang LC sa ganitong kraytirya o paulit-ulit itong makikita sa markahang sinusuri, minabuting tanggalin na ito.

2. Dumaan sa deliberasyon ng team ng mga curriculum specialist sa EsP ang pagpapasya kung aling paksa o LC ang mananatili, gabay ang mga kraytiryang binanggit.
3. Nang mabuo na ang talaan ng mga MELC sa bawat baitang, itinakda na ang panahong gugugulin sa pagtuturo ng bawat MELC (time allotment).

## II. Paano Gamitin ang MELCs ng EsP

1. Isaalang-alang ang Pangkalahatang Pamantayan sa bawat baitang.
2. Pag-aralan ang bawat MELC ayon sa Pamantayang Pangnilalaman at Pamantayan sa Pagganap ng bawat quarter o paksa.
3. Sa Junior High School, bigyang prayoridad sa *pagtuturo* at *pagpili ng learning resources* ang **paglinang ng Batayang Konsepto** na nasa ikatlong LC ng paksa at ang **ebidensya ng pagkaunawa nito** – ang Performance Task na nasa ika-apat na LC. Ang una at ikalawang LC ang pre-requisite ng ikatlo at ika-apat na LC. **Sa Baitang 1 hanggang 6, mahalaga ang paghinuha o pagtukoy mismo ng mga guro ng Batayang Konsepto na ipinahihiwatig ng isang LC o kalipunan ng mga LC, kahit hindi direktang binanggit ito.** “Ano ang kahalagahan ng paggawa ng gawain o pagsasabuhay ng pagpapahalagang nakapaloob sa LC” ang dapat matandaan ng mga bata, hindi lamang ang *gawain o pagpapahalagang* nakasaad dito.
4. Gamitin ang mga modyul o Learning Resources na nabanggit sa Teachers’ Resources ayon sa tatlong hakbang sa itaas.
5. Maaring gamitin ang mga gawain sa aklat o Learners’ Module bilang *pagtatasa* (assessment) ng pagkatuto. Halimbawa: Sa Ikatlong LC, paksang *Talento at Kakayahan*, Baitang 7, Unang Markahan:

<b>Learning Competency</b> (Kasanayan sa Pampagkatuto)	<b>Gawain</b> (Maaaring gamitin sa Pagtatasa)
<p>Napatutunayan na ang pagtuklas at pagpapaunlad ng mga angking talento at kakayahan ay mahalaga sapagkat ang mga ito ay mga kaloob na kung pauunlarin ay makahuhubog ng sarili tungo sa pagkakaroon ng tiwala sa sarili, paglampas sa mga kahinaan, pagtupad ng mga tungkulin, at paglilingkod sa pamayanan</p>	<ul style="list-style-type: none"> <li>- Pagbasa nang may pag-unawa ng babasahin sa Pagpapalalim</li> <li>- Pagsagot sa “Tayahin ang Iyong Pag-unawa”</li> <li>- Pagbuo ng Batayang Konsepto gamit ang graphic organizer at pagpapaliwanag nito</li> </ul>

## Gabay sa Paggamit ng Pinakamahalagang Kasanayang Pampagkatuto o *Most Essential Learning Competencies (MELCs)* sa Filipino

Ang Kagawaran ng Edukasyon sa pamamagitan ng Bureau of Curriculum Development ay bumuo ng talaan ng mga pinakamahalagang kasanayang pampagkatuto o *Most Essential Learning Competencies* (MELCs). Binuo ito upang tugunan ang mga pangangailangan ng mga guro at mag-aaral kaugnay ng mga hamong dala ng COVID19. Gamit ang MELCs, inaasahan na makatutulong ito sa anumang *mode of instructional delivery* na gagamitin ng guro upang punan ang pinaikling panahon ng pag-aaral at limitadong interaksyon ng mga mag-aaral sa paaralan.

Ang MELCs ay tumutugon din sa pangunahing layunin ng pag-aaral ng Filipino, ang makalinang ng isang buo at ganap na Filipinong may kapaki - pakinabang na literasi.

### Proseso ng pagpili at pagbuo ng MELCs ng Filipino

Sa proseso ng pagtukoy ng mga pinakamahalagang kasanayang pampagkatuto o MELCs, ang ENDURANCE o katatagan ang naging batayan upang piliin ang mga kompetensiyang isasama sa listahan:

- a. nagagamit sa totoong buhay;
- b. higit na mahalaga kaysa ibang kompetensi; at
- c. lubhang kailangan upang matutunan ang iba pang asignatura o propesyon

Bukod sa mga pamantayang nabanggit, isinaalang-alang din ang pagsasakatuparan ng mga pamantayan sa bawat baitang at ang kasama nitong pamantayang pangnilalaman at pamantayan sa pagganap.

### Paano gagamitin ang MELCs sa pagtuturo?

Dahil sa ilang katangiang tinataglay ng MELCs, pinapayuhan ang guro na gamitin ito ayon sa mga sumusunod:

1. Pag-uulit ng ilang MELCs sa iba pang markahan ng bawat baitang kung kinakailangan sa lalong paglinang nito.

Baitang/Markahan	MELCs
Baitang 1 – Ikatlong Markahan	Nagagamit ang naunang kaalaman o karanasan sa pag-unawa ng napakinggang alamat/teksto
Baitang 2 – Unang Markahan	Nagagamit ang naunang kaalaman o karanasan sa pag-unawa ng napakinggang teksto
Baitang 3 – Unang Markahan	Nagagamit ang naunang kaalaman o karanasan sa pag-unawa ng napakinggang teksto

Matatagpuan sa listahan ng MELCs na ang ibang kompetensi katulad ng halimbawa sa itaas ay hindi na nauulit sa bawat markahan bagkus makikita ang pag-uulit nito sa bawat baitang. Ang pagpapanatili ng pag-uulit ng mga kompetensi sa bawat baitang ay nangangahulugang pagbibigay pansin sa mga kasanayang dapat matutuhan ng mag-aaral lalo't higit na kailangan ito sa pagkatuto ng iba pang asignatura.

2. Pag-unpack ng MELCs para sa mga tiyak na mga kasanayang pampagkatuto.

Baitang/Markahan	MELCs	Mga Pantulong na Kasanayang Pampagkatuto
Baitang 2 – Ikaapat na Markahan	Nababasa ang mga salitang madalas na makita sa paligid at batayang talasalitaan	<ul style="list-style-type: none"> <li>✓ Napapantig ang mga mahahabang salita</li> <li>✓ Nabibigkas nang wasto ang mga diptonggo</li> <li>✓ Nababasa ang mga salita sa unang kita</li> </ul>
Baitang 5 – Unang Markahan	Nagagamit nang wasto ang mga pangngalan at panghalip sa pagtalakay tungkol sa sarili, sa mga tao, hayop, lugar, bagay at pangyayari sa paligid, sa usapan at paglalahad tungkol sa sariling karanasan	<ul style="list-style-type: none"> <li>✓ Natutukoy ang kahulugan ng mga pangalan at panghalip</li> <li>✓ Nakapagbibigay ng mga halimbawa ng pangalan at panghalip</li> <li>✓ Nakapagbibigay ng reaksiyon sa isang usapin</li> <li>✓ Naisalaysay ang sariling karanasan</li> </ul>

Inaasahang magkakaroon ng *unpacking* ang guro para sa mga malalawak na MELCs upang sa gayon ay mas mabigyang pansin ang mga batayang konsepto at kasanayang dapat matutuhan ng mga mag-aaral.

3. Pagpili ng mga magkakasamang MELCs na sasakto para sa walong (8) linggo.

Baitang/Markahan	MELCs	Duration
<b>Baitang 5</b>	Nababaybay nang wasto ang salitang natutuhan sa aralin at salitang hiram	
	Nasasagot ang mga tanong sa binasa/napakinggang talaarawan, journal at anekdota	

<b>Ikalawang Markahan</b>	Naibabahagi ang isang pangyayaring nasaksihan o naobserbahan	
	Nailalarawan ang tagpuan at tauhan ng napanood na pelikula at nabasang teksto	
	Nabibigkas nang may wastong tono, diin, antala at damdamin ang napakinggang tula	
	Naibibigay ang paksa/layunin ng napakinggang kuwento/usapan/talata, at pinanood na dokumentaryo,	
	Naibibigay ang mahahalagang pangyayari sa nabasang talaarawan, talambuhay at sa napanood na dokumentaryo	
	Nagagamit ang magagalang na pananalita sa pagsasabi ng hinaing o reklamo, sa pagsasabi ng ideya sa isang isyu, at sa pagtangg	
	Nakapagbibigay ng angkop na pamagat sa isang talata at tekstong napakinggan	
	Naipapahayag ang sariling opinyon o reaskyon sa isang napakinggang balita, isyu o usapan,	
	Naibibigay ang bagong natuklasang kaalaman mula sa binasang teksto at datos na hinihingi ng isang form	
	Nakasusulat ng simpleng patalastas, at simpleng islogan	
	Nagagamit ang pangkalahatang sanggunian sa pagtatala ng mahahalagang impormasyon tungkol sa isang isyu	
	Naitatala ang mga impormasyon mula sa binasang teksto	

Binibigyang laya pa rin ang mga guro na makapili ng mga magkakasamang MELC sa bawat linggo na sa tingin nila’y sasakto at sasapat batay sa gagamiting paraan ng pagtuturo o *mode of instructional delivery*. Ito ay makatutulong upang maipadron ang mga MELCs sa konteksto at pangangailangan ng mga guro’t mag-aaral.

At bilang karagdagan, minabuti ng mga espesyalista sa erya ng Filipino na hindi magbigay ng tiyak na haba ng oras sa pagtuturo ng MELCs sa loob ng isang markahan upang maiwasang malimitahan ang guro sa paggamit nito. Sa huli, dapat bigyang pansin na ang mga kompetensing nakalista sa MELCs ay dapat makamit sa mga tinukoy na baitang.

Tandaan na ang layunin sa pagbuo ng MELCs ay hindi upang palitan ang kasakuluyang *curriculum guide* kundi upang magabayan ang mga guro sa pagtukoy ng mga kompetensing mas kinakailangan ng mga mag-aaral sa Taong Panuruang 2020-2021. Sa huli, hinihiyay pa rin ang mga guro na sumangguni sa *curriculum guide ng Filipino* kung sa tingin nilang hindi sapat ang mga kompetensing tinukoy sa MELCs.

### Guiding our Teachers: A Briefer on Using The Math MELCs

Identifying the learning competencies in the Mathematics K to 10 Curriculum that satisfy the criterion endurance posits that these most essential learning competencies necessitates the realization of the twin goals of Mathematics – problem solving and critical thinking. Laying the foundational concepts and skills at each grade level are pivotal in the learning progression of each child. This consequently scaffold the learner’s understanding and acquisition of higher skills.

The identified most essential learning competencies in Math puts premium on the development of numeracy skills which are fundamental to practical and real-life problems, rather than Math content-knowledge; and on the development of higher-order thinking skills which goes beyond procedural fluency. It followed the content domains as articulated in the curriculum – Numbers and Number Sense, Measurement, Geometry, Patterns and Algebra, and Statistics and Probability.

Similarly, the skills and processes to be developed as emphasized in the curriculum, are maintained. These include knowing and understanding; estimating, computing and solving; visualizing and modelling, representing and communicating, conjecturing, reasoning, proving and decision-making; and applying and connecting.

It is further aimed that the values and attitudes – accuracy, creativity, objectivity, perseverance, and productivity, be strongly honed among learners especially at this crucial time of health emergencies. The use of various instructional resources, especially calculators, computers, smart phones and tablets, while ensuring its appropriate use with respect to age and grade level of the learners, are likewise encouraged.

The value of Mathematics as a learning area should not be confined in the corners of a classroom or any learning space. Its application to real-life world problems should be dealt with depth and breadth which may be mirrored in classroom instruction.

Teachers, as the instructional leader in the implementation of the curriculum in the classroom, should use the identified most essential learning competencies as outlined in this document to help them decide on how to scaffold the achievement of the learning goals and meaningful learning in Math, in a reduced time allotment.

## How to Use the MELCs in Math

6. Appraise the content standards in each quarter of your grade level. This will guide you in tracking the learning content being focused per quarter.
7. Plan the instructional activities suited for the type of learning delivery modality being used based from the performance standards specified in a particular quarter. Ensure the appropriateness of the learning materials, instructional resources and/or instructional device to be utilized to achieve these standards.
8. Examine the identified most essential competencies for each week. This will be the learning goal for the week. If the learning competency is seemingly a big chunk of a learning goal, then it has to be sub-tasked. But bear in mind that the development of math skill is arguably of more importance than the competence of content-knowledge in Math. For example, place a great emphasis on how to perform operations on fractions and how it can be utilized in real life context than on defining the different types of fractions
9. In your instructional plans, design activities or assessment tasks wherein learners will have a great deal of analysis and problem-solving. A case in point is on analyzing the graph of an equation where tasks should not be concentrated on how the learners will draw the graph of the equation as this may be augmented through the use of spreadsheets or software application, but on the analysis of the graph and how these graphs are illustrated in solving real-life problems.

## GUIDING OUR TEACHERS: A Briefer on Using the Mother Tongue MELCs

### About the Process

In light of the COVID-19 pandemic and the consequent shortened academic year, the Department of Education, through the Bureau of Curriculum Development-Curriculum Standards Development Division, has produced a list of the most essential learning competencies (MELCs). This was done in order to ensure that the Grade Level Standards set for each learning area are still attained. A sole determiner was used in the process of identifying the MELCs – the ENDURANCE criterion, which states that a learning competency (LC) is considered *enduring* if it is useful in lifelong learning. Despite the irrefutable importance of the Mother Tongue (MT) in literacy building, not all the LCs in its curriculum satisfied the above mentioned criterion.

In the first key stage, that is from Kindergarten to Grade 3, the medium of teaching and learning is the student's first language. Therefore, MT as a subject is significant in providing the literacy and oracy skills necessary in acquiring the content knowledge in other learning areas. Accordingly, the MELCs identified are those that work in close association with other competencies in other subjects, thus maintaining the curricular quality of integration. Consider the Grade 3 LC cited below:

#### *Example:*

Interprets a pictograph based on a given legend

The example above deals with the skill to draw meaning from nonprose texts – knowledge which is especially useful in Math.

MELCs are also considerably less than the original number of LCs in the curriculum because of two factors. First, recurrence is limited. Although any language curricula would require recurrence as this is the nature of language learning, this was done with restriction in identifying the MELCs. However, this does not mean that the teacher is prohibited from teaching an LC more than once. Following the principle of curriculum flexibility and differentiated instruction, he/she is strongly advised to put focus, and therefore repeat an LC should circumstances require.

The second factor considered in determining the MELCs is the LCs' ability to be clustered together. Consider the example below:

#### *Example:*

Get information from various sources: published announcements and map of the community

As can be seen, this LC would entail a number of other competencies in order for it to be achieved. Among the competencies needed are: (1) distinguishing different sources of information; (2) comparing and contrasting different sources of information in terms of structure and content; (3) interpreting nonprose

texts. This consequently calls for unpacking and sub-tasking on the part of the teacher, so that bigger or broader LCs may be broken down into manageable sub-competencies.

It should also be noted that domains were no longer retained as these may cause confusion among end users. The original Curriculum Guide (CG) for Mother Tongue was designed in such a way that domains work together through horizontal alignment since one lesson does not tackle only one macro skill, but multiple skills. However, during the examination of LCs using the ENDURANCE criterion, some skills under a particular domain can no longer be retained. Organizing the MELCs by domain, through columns as in the original CG, would render the document seemingly incomplete and harder to follow due to the absence of horizontal alignment. See table below which shows Week 1 of the First Quarter of Grade 1; note that entries in red are not considered MELCs (domains with no LC entries were no longer included):

Oral Language (OL)	Book and Print Knowledge (BPK)	Fluency (F)	Grammar Awareness (GA)	Vocabulary and Concept Development (VCD)	Attitude Towards Reading (ATR)
<b>MT1OL-Ia-i-1.1</b> Talk about oneself and one's personal experiences using appropriate expressions	<b>MT1BPK-Ia-c-1.1</b> Use the terms referring to conventions of print: -front and back cover -beginning, ending, title page author and illustrator	<b>MT1F-Ic-IVa-i-1.1</b> Read Grade 1 level words, phrases and sentences with appropriate speed and accuracy	<b>MT1GA-Ia-e-1.1</b> Use appropriate expressions orally to introduce: -Oneself -Family -Friends -Others	<b>MT1VCD-Ia-i-1.1</b> Use vocabulary referring to: -People (Self, Family, Friends) -Animals -Objects -Musical Instruments -Environment	<b>MT1ATR-Ia-i-2.1</b> Browse books read to them

Relative to this, the schedule and time allotment of LCs in quarters are suggestive in nature. As discussed, the teacher is given the autonomy to unpack the MELC depending on the needs of the learners. Based on this premise, therefore, the duration of an LC is relative. What is required, however, is that the list of competencies be achieved in the specified grade level.

Lastly, given the detailed nature of the content and performance standards in the Mother Tongue Curriculum, the process of determining the MELCs required that some of these standards be forgone. See figure below showing the content and performance standards for Grade 1:

Domain	Content Standard	Performance Standard
	<i>The learner...</i>	<i>The learner...</i>
<b>Oral Language</b>	manifests beginning oral language skills to communicate in different contexts.	uses beginning oral language skills to communicate personal experiences, ideas, and feelings in different contexts.
<b>Phonological Skills</b>	demonstrates understanding that words are made up of sounds and syllables.	uses knowledge of phonological skills to discriminate and manipulate sound patterns.
<b>Book and Print Knowledge</b>	demonstrates understanding of the basic features of a book and how print works, as a prerequisite for reading.	demonstrates knowledge and understanding of the organization and basic features of print.
<b>Phonics and Word Recognition</b>	demonstrates knowledge of the alphabet and decoding to read, write and spell words correctly.	applies grade level phonics and word analysis skills in reading, writing and spelling words.
<b>Fluency</b>	demonstrates the ability to read grade one level text with sufficient accuracy, speed, and expression to support comprehension.	reads with sufficient speed, accuracy, and proper expression in reading grade level text.
<b>Composing</b>	demonstrates the ability to formulate ideas into sentences or longer texts using developmental and conventional spelling.	uses basic knowledge and skills to write clear, coherent sentences, and simple paragraphs based on a variety of stimulus materials.
<b>Grammar Awareness</b>	demonstrates awareness of language grammar and usage when speaking and/or writing.	speaks and/or writes correctly for different purposes using the basic grammar of the language.
<b>Vocabulary and Concept Development</b>	demonstrates developing knowledge and use of appropriate grade level vocabulary and concepts.	uses developing vocabulary in both oral and written form.
<b>Listening Comprehension</b>	demonstrates understanding of grade level narrative and informational text.	comprehends and appreciates grade level narrative and informational texts
<b>Reading Comprehension</b>	demonstrates understanding of grade level narrative and informational texts.	uses literary and narrative texts to develop comprehension and appreciation of grade level appropriate reading materials.

<b>Study Skills</b>	demonstrates basic knowledge and skills to listen, read, and write for specific purposes.	listens, reads, and writes for specific purpose.

Nevertheless, it is assured that all Grade Level Standards are maintained through the chosen MELCs.

### How to Use the MELCs

Given the nature of the MELCs, the teacher is advised to re-teach certain competencies needed for their achievement. It is also recommended that the teacher unpack the MELCs into more specific learning competencies as guided by the original Mother Tongue Curriculum Guide. Consider the following example:

GRADE LEVEL/ QUARTER	MELC	SUB-COMPETENCIES
G3 Q3	Uses the correct form of the verb that agrees with the subject when writing an event, or an interesting experience	Identifies and uses verbs appropriate for the grade level
		Uses the correct form of the verb given the time signal
		Uses the correct form of the verb that agrees with the subject

The sub-competencies listed above are only some of the LCs subsumed by the MELCs. The teacher may include more or less than those identified depending on the needs of the learners. Teachers are given the leeway to formulate learning objectives deemed necessary for their students' cognitive development as long as they adhere to the existing curriculum standards prescribed by the Department of Education.

## GUIDING OUR TEACHERS: A Briefer on Using the Science MELCs

The K to 12 Basic Education Curriculum is standards-based. The content standards cover a specified scope of topics which sets the essential knowledge and understanding that must be learned. The performance standards describe the abilities and skills that the learners are expected to demonstrate in relation to the content standards. These standards are further represented as learning competencies which are the knowledge, skills and attitudes that students need to demonstrate in every lesson or learning activity.

The current health crisis brought about by the CoViD-19 pandemic is considered as one of the greatest threats in the Philippine basic education. The challenge to make Education relevant and responsive to the current situation is our primary concern. With the expected decrease in the contact hours of teaching science brought by the change in schedule of the school year, the Curriculum Standards Development Division of the Bureau of Curriculum Development has identified learning competencies that are critical. These Most Essential Learning Competencies (MELCs) were identified using the criterion Endurance. Enduring competencies are those that remain with learners long after a test is completed (Reeves, 2002) or is useful beyond a single test or unit of study (Many and Horrell, 2014). They also refer to learning competencies which are essential in many professions and in everyday life.

To ensure continuity of the learning progression of our learners, it is important to make sure that learning competencies needed in the understanding of succeeding concepts in the next grade level are prioritized. Over all, the resulting list still captures the objective of the science program which is the development of scientifically, technologically, and environmentally literate and productive members of society who manifest skills as a critical problem solvers, responsible stewards of nature, innovative and creative citizens, informed decision makers, and effective communicators.

The table below shows examples of how the Most Essential Learning Competencies in the different Key Stages Matter domain were identified.

KEY STAGE	Retained LC	Deleted LC	Justification
Key Stage 1	<b>S3MT-Ic-d-2</b> Classify objects and materials as solid, liquid, and gas based on some observable characteristics	<b>S3MT-Ia-b-1</b> Describe different objects based on their characteristics (e.g. Shape, Weight, Volume, Ease of flow);	Description of shape and weight has been discussed in Grades 1 and 2 and based on how it is stated the deleted LC ( <b>S3MT-Ia-b-1</b> ) can be covered in the retained LC ( <b>S3MT-Ic-d-2</b> ). Furthermore, the ability to classify solids, liquids and gases based on observable characteristics is a foundation of other science skills.
Key Stage 2	<b>S5MT-Ih-i-4</b> Design a product out of local, recyclable solid and/or liquid materials in making useful products	<b>S5MT-Ie-g-3</b> Recognize the importance of recycle, reduce, reuse, recover and repair in waste management	The retained LC will already cover the intention of the deleted LC ( <b>S5MT-Ie-g-3</b> ) and will even require students to be more creative

Key Stage 3	<b>S8MT-IIIi-j-12</b> Use the periodic table to predict the chemical behavior of an element	<b>S8MT-IIIg- h-11</b> Trace the development of the periodic table from observations based on similarities in properties of elements	The deleted LC( <b>S8MT-IIIg- h-11</b> ) is deemed not as essential as the retained LC ( <b>S8MT-IIIi-j-12</b> ) as it requires the student to use the properties of elements to predict the chemical behavior of an element, hence it is more encompassing.
Key Stage 4	<b>S11/12PS-IIIc-d17</b> describe the general types of intermolecular forces	<b>S11/12PS-IIId-e18</b> give the type of intermolecular forces in the properties of substances	The deleted LC ( <b>S11/12PS-IIId-e18</b> ) is subsumed in the retained LC ( <b>S11/12PS-IIIc-d7</b> ).

#### How to Use the MELCS

The Science curriculum guide lists the learning competencies (LCs) together with the code, which was set to guide the teachers the time at which a certain competency is to be delivered. However, since the learning competencies have been reduced to the most essential, the code will not be of much use. For this reason, the proposed length of time for each of the competency is also included. It should be noted that the time allocation for the competencies is not a hard and fast rule. Teachers may deviate from the time allocation as long as the LCs are delivered and developed among the learners.

The identified MELCS are broad statements and should be therefore unpacked into learning objectives. In translating the LC into a specific learning objective, it is best to look into the content and performance standards. Below is an example of learning objectives for the Physics domain of Grade 8 which is taught in the first quarter.

Content Standard	Performance Standard	Learning Competency	Learning Objectives
The learners demonstrate understanding of work using constant force, power, gravitational potential energy, kinetic energy, and elastic potential energy	The learners should be able to develop a written plan and implement a “Newton’s Olympics”	Identify and explain the factors that affect potential and kinetic energy	a. define and differentiate potential and kinetic energy b. identify the factors that affect potential energy c. determine the mathematical variation between potential energy and mass and height from the ground d. compare the values of potential energy of varying masses at the same elevation from the ground e. identify the factors that affect kinetic energy

			f. determine the mathematical variation between kinetic energy and mass and velocity g. create and explain a concept map involving the terms kinetic energy, potential energy, mass, velocity, and elevation h. demonstrate and explain the Law of Conservation of Energy using a pendulum
--	--	--	--

The proposed delivery of the identified LC above is from the middle of the second week up to third week. Since the performance standard, which is to develop and implement a plan for a “Newton’s Olympics,” involves other LCs, an activity involving a pendulum will provide the learners a first-hand observation of the nature of the movement of a pendulum bob with respect to kinetic and potential energy. The learners could also be given activities that relate the impact of an object dropped from a certain height, while varying both the mass and elevation. The impact of the object hitting the ground can then be equated with the amount of energy it possess.

## GUIDING OUR TEACHERS: A Briefer on Using the EPP/TLE MELCs

### About the Process

In EPP/TLE MELCs were identified in the four components which are as follows:

- a. Industrial Arts (IA)
- b. Home Economics (HE)
- c. Agriculture and Fishery Arts (AFA)
- d. Information, Communication and Technology (ICT)

The **identified MELCs** preserve the main objective of Edukasyong Pantahanan at Pangkabuhayan (EPP) which is to enable the learners acquire technical knowledge, skills and values in the four components mentioned above while Technology and Livelihood Education (TLE) is to make the learners **technologically proficient** that may lead them to pursue a career or livelihood training.

**The identified MELCs in EPP/TLE are intended only for School Year 2020-2021 to accommodate the necessary adjustment due to the shortened academic year.** The curriculum was not revised and the identified MELCs are lifted from the existing curriculum guide without any enhancement or modification.

### HOW TO USE MELCs IN TEACHING EPP/TLE/TVL

The duration stipulated in this document is not prescriptive, rather suggestions **but the MELCs, however, are non-negotiable.**

The following are the premises to be considered in utilizing MELCs in the teaching of EPP/TLE:

- Entrepreneurship is embedded in the four components of EPP/TLE;
- There are MELCS that have broad stroke competencies which have to be unpacked by the teachers;
- Sub learning competencies that are redundant or recurring were removed to satisfy the 8 to 9 weeks' allotment per quarter;
- For Grades 4-6 of Edukasyong Pantahanan at Pangkabuhayan (EPP) / Technology and Livelihood Education (TLE), there is a quarter 0, again this is consistent with the coding of EPP/TLE Curriculum Guide as it gives leeway to the school of which among the components needed emphasis per quarter.

- For Grades 7/8 Exploratory, there is an option to choose four mini courses in ICT/AFA/HE/IA or one of the components may be chosen for the duration of the whole year. Each mini course is good for 8 to 9 weeks per quarter.
- For Grades 7/8 Exploratory, the last two to three weeks are allotted for entrepreneurship.
- In addition to Exploratory TLE 7 and 8, MELCs for these Grade Levels are similar to that of Grades 4 to 6 in a way that these grade levels contain quarter 0. Furthermore, modifications below were made to show a clearer articulation of standards.

Basis	Curriculum Guide	Most Essential Learning Competencies (MELCs)
1. Clustering of some mini-courses according to their sector, in consideration that they have the same tools, equipment, materials and competencies. - For most of the TLE/TVL specializations, the Curriculum Guides remain as is. MELCS were not identified because the competencies are based on the Training Regulations of TESDA; hence, omitting some learning competencies may have an impact on the National Certification Assessment. ***This also applies to SHS TVL specializations EXCEPT*** for the following cases:

- *Handicraft and other TLE/TVL specializations that are non-NC or that may not affect the assessment of the learners, are suggested to be offered this year. The performance/ skills for these specializations can be delivered both in school or at home. Local materials are available in the community.*
- *The Beauty Care (Nail Care/Foot SPA/Hand SPA), Hairdressing, Barbering and other TLE/TVL specializations similar to these are also recommended to be offered this year. These have National Certification Assessment but the performance/skills can be done both in school or at home.*

- *Sample MELCs for these specializations are suggested to be used.*

- For TLE/TVL Specializations, consider the resources available in school, at home, or in the community in choosing what course(s) to offer since health is the utmost concern. In instances when the learners cannot physically attend a class, the learners should still be able to perform the task as stated in the CG.
- On the other hand, in cases when competencies are not feasible/ attainable due to various circumstances, the teacher may give an alternative activity provided it is aligned with the substituted learning competency.

## GUIDING OUR TEACHERS: A Briefer on Using the MAPEH MELCs

### The Process

In light of the COVID-19 pandemic and the consequent shortened academic year, the Department of Education, through the Bureau of Curriculum Development-Curriculum Standards Development Division, has produced a list of the most essential learning competencies (MELCs). This was done in order to ensure that the grade level standards, along with the corresponding content and performance standards, set for each learning area are still attained. In the process of identifying the MELCs, the ENDURANCE criterion was used as the sole determiner. Guided by the requirement that a learning competency (LC) be useful in lifelong learning, the group of specialists' in-charge of the MAPEH curriculum recognizes the role of the subject in providing the physical, health, and cultural literacies including artistic expression skills necessary in acquiring the knowledge, skills and values to live an active life. Further, the MELCs identified are those that work in close association with other competencies in other subjects, thus maintaining the curricular quality of integration.

### How to Use the MELCs

The MELCs serve as reference to assist the teachers in identifying the most important learning competencies to be developed by the learners and what must be prioritized in this crisis situation. Further, MELCs are not meant to replace the existing curriculum guide and effective only for SY 2020-2021.

MELCs with (\*) are rephrased and deemed essential learning competencies in the achievement of content and performance standards. For example:

Component	MAPEH CG	Rephrased
Music	G2-Q2 - Demonstrates the melodic contour with movement	Demonstrates melodic contour through: a. movement b. music writing (on paper or on air) c. visual imagery
Arts	G10-Q1 - Determine the role or function of artworks by evaluating their utilization and combination of art elements and principles	Explain the role or function of artworks by evaluating their utilization and combination of art elements and principles
Physical Education	G1-Q3 – Describes the difference between slow and fast, heavy and light, free and bound movements	Demonstrates the difference between slow and fast, heavy and light, free and bound movements

Health Education	G2-Q1 – Discusses the important functions of food	Discusses the important function of food and a balanced meal
